Gracious Space & Equity

Events of the past several years have raised collective awareness of the need for successful approaches to discuss and improve inclusion, belonging, and equity. Gracious Space is an inherently inclusive model that has helped leaders cultivate more inclusive workplace practices since 2004.

Drawing from Pat's 2023 book *Creating Equity with Gracious Space*, these workshops provide specific ways to leverage Gracious Space to foster more belonging, equity, access, and inclusion. Participants will gain ideas to implement as well as the support, wisdom, and camaraderie of other participants.

These are stand-alone workshops; however, we highlight different approaches, so both are beneficial.
