Creating Equity and Sharing Power

The events of 2020 accelerated the need to hasten equitable change. Gracious Space is an inherently inclusive model that serves as an antidote to white and other dominant cultures that minimize input or participation.

This course is for anyone seeking to use Gracious Space to reimagine spaces that foster belonging, equity, access, and inclusion. (Prior knowledge of Gracious Space is required). Participants will work within a supportive cohort setting to heighten the role of Gracious Space in increasing belonging, analyzing existing systems, raising up equity and shared power, and creating a path forward for relevant, equitable change within their groups and organizations.
